-Glatfelter Announces Its First FSC Certified Carbonless Grade-

CHILLICOTHE, Ohio – 8/15/08 – Glatfelter, a global manufacturer of specialty papers and engineered products and a leader in responsible forestry management, announces that it will launch a new, FSC certified digital carbonless line of products beginning Monday, September 8. Known as Xcelerator® PLUS, the line is specially engineered to perform in today's most advanced digital equipment while also giving the peace of mind of environmental responsibility offered by Glatfelter's chain-of-custody FSC certification.

Already an outstanding choice of many years for customers using digital equipment to create business forms, Xcelerator® Digital Carbonless now adds the FSC mark of responsible forestry to its pedigree. "Glatfelter customers will get a powerful combination of environmental excellence and outstanding digital performance. We are proud that our dedication to sustainable forestry initiatives and product development can meet in one excellent carbonless product." said Product Manager John Stolarz.

"Xcelerator PLUS Digital Carbonless also features Glatfelter's NatureSolv™, the environmentally responsible carbonless capsule technology, so customers should feel even better about their choice of digital carbonless," said Director of Marketing Melissa Klug. "Customers are actively looking for environmentally responsible solutions, and the combination of FSC certification and the NatureSolv™ capsule system is a powerful statement of your commitment to greener options," according to Klug.

Xcelerator® PLUS Digital Carbonless will be available on ALL digital products, both rolls and sheets, beginning with orders Monday, September 8, 2008. Invoices will reflect the Glatfelter chain-of-custody certification number beginning that day. Detailed product information will follow from your Glatfelter Territory Manager, or contact us at paperinfo@glatfelter.com.

To learn more about the new, FSC-certified Xcelerator® Digital Carbonless, visit our website at:

Glatfelter's Environmental Commitment

Glatfelter's Environmental Policy reflects our commitment to comply with environmental laws and regulations, practice pollution prevention, and continuously try to improve the environment. Instituted in 1997 as part of the ISO 14001 certification process, our environmental policy is the foundation for the Company's Environmental Management Systems (EMS) and one of the company's core values.

We are committed to:

- Empowering employees to take personal responsibility for awareness and control of environmental issues on the job.
- Complying with environmental laws and regulations and voluntary principles to which it subscribes.
- Practicing prevention of pollution by using natural resources efficiently, reducing waste, encouraging recycling and reuse, and reducing adverse environmental impacts that may be caused by its operations.
- Maintaining and continually improving an environmental management system with the goal of improving environmental performance.
- Practicing sustainable forestry on Company-owned lands as well as encouraging landowners we work with to manage their lands in a sustainable way.

About FSC

The Forest Stewardship Council (FSC) is a 501(c)3 nonprofit organization dedicated to the independent certification of forests. FSC promotes responsible forest management by evaluating and accrediting certifiers, by encouraging the development of national and regional forest management standards, and by providing public education and information about independent, third-party certification as a tool for ensuring that the world's forests are protected for future generations. For more information, visit www.fscus.org/.
