GLATFELTER
Beyond Paper

*Beyond Paper™ ... is everything we do,
above and beyond making great paper – that makes us unique.*

GEPALINER

- **GEPALINER** has proven performance across a wide range of cigarette packaging machines to include Molins, Focke, Hauni, ITM and GD.
- **GEPALINER** offers a highly reflective metallic product which can be considered as paper through and through. In combination with the carton, GEPALINER contributes to a combined weight of >95% regarded as paper, which can be repulped, recycled or composted.
- **GEPALINER** is available in varying appearance to suit individual brand requirements, such as in gold, silver, color, plain, special design, security and embossed.
- Product weights at 52 to 73 gsm suitable for hard and soft pack design.
- Menthol resistance by request.
- Dimensions: 60-160 mm std bobbin width.
70, 76, 102, 120, 150, 152 mm core width.
Bobbin dimension to suit individual demand.
- Supply: Bobbins supplied on Pallets.
Each layer protected.
Protective wrapped.

*A market leading metallizing capability,
supported by world-class technical
expertise and R&D. Let us help you get
noticed.*

Glatfelter Caerphilly Ltd.

Glatfelter acquired the metallizing business based in Caerphilly, UK in December 2007, taking its total paper metallizing capacity to a level in excess of 30,000 tonnes/yr. With the combined capability and expertise of the Gernsbach and Caerphilly operations, Glatfelter provides a highly competent and secure partner for the supply of metallized Inner Liner products for the tobacco industry.
