

# Xcelerator® PLUS Digital Carbonless Now FSC-Certified

Another example of Glatfelter's commitment to product innovation and environmental quality.

## FSC Certification

Responsible forestry for more responsible papers

A global leader in specialty papers and engineered products, Glatfelter now provides their entire digital carbonless product line FSC-certified. Known as Xcelerator® PLUS, the line is specially engineered to perform in today's most advanced digital equipment while also giving the peace of mind of environmental responsibility offered by Glatfelter's chain-of-custody FSC certification.

## NatureSolv™

The environmentally responsible carbonless capsule

All Glatfelter carbonless papers now feature NatureSolv™, a carbonless capsule using natural, organic solvents. NatureSolv™ is better for the environment, provides the rich, black image quality our customers expect, and is guaranteed in all sheets and rolls without additional cost.

## Leading the Way

Glatfelter's commitment to the environment

Environmental responsibility is a Core Value and a key element of Glatfelter's sustainability philosophy. Consistent with its Core Values, Glatfelter is committed to continuous improvement in all we do, to conserve resources, prevent waste and foster environmental sustainability for the benefit of future generations.
