DYNAWEB 60/HE Nonwoven Base for Dispersible Wipes

Glatfelter encourages you to use the right material at the right place!

Product Features

**Begins to disperse right after flushing**
- 100% biodegradable furnish and FSC Mix
- No added chemicals or binders
- 100% dispersibility
- Product of high strength
- Ultra soft and gentle to the skin
- Good haptics and drapability
- Excellent runnability on converting machines
- Microbiologically tested for hygiene use
- Also compatible for disinfection wipe grades

This substrate has been confirmed as a dispersible material meeting current EDANA/INDA guidelines. It has been **tested and approved** for dispersibility and flushability according to the EDANA/INDA GD3 standards.

This product also adheres to the dispersibility criteria required by the Netherlands.

**GLATFELTER - Established supplier in wipes and hygiene business with long technological competence for wipes production**
