- Excellent white printing
- Select grades are FSC<sup>®</sup> certified (FSC<sup>®</sup> C041205)

# GEPATAC® METALLIZED PAPER

Exceptional Gloss – Filmic look

G L A T F E L T E R

## GEPATAC® METALLIZED PAPER

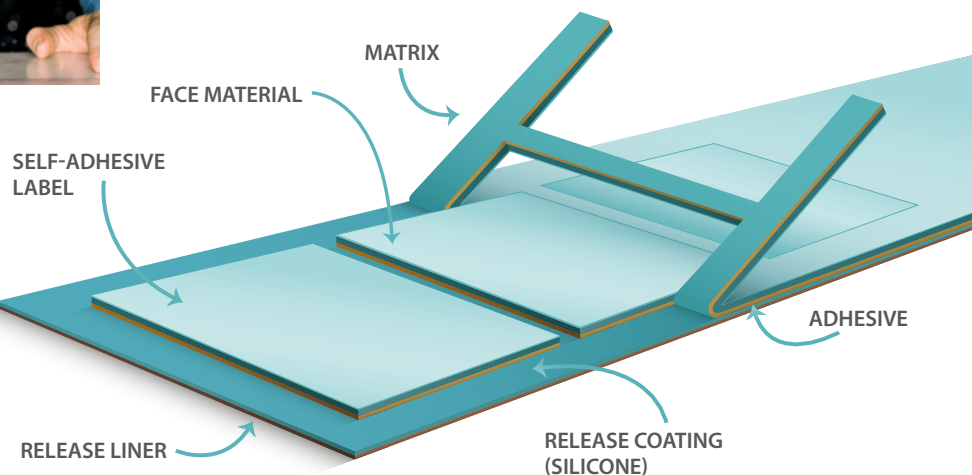

GEPATAC® has the best 'GLOSS' on the market. This is achieved by using special coated papers plus certain resins which give a finish regarded as market leader in the Pressured Sensitive Label market.

GEPATAC® has excellent ink adhesion to a wide range of UV and waterbased inks.

The vapor-deposited aluminum adds hardly any weight whilst offering designing opportunities, as well as all the processing advantages of paper. Our GEPATAC® metallized papers are also available in gold and matt. Furthermore, we offer a suitable grade for digital printing (HP Indigo process).

All over the world, GEPALUX® papers are giving big name brand manufacturers visible added value.

**For over 40 years, Glatfelter Metallized Papers have been giving a competitive edge to your premium brands.**
