Financial Update

Near Term Financial Priorities

Available Liquidity

- Focused on maximizing financial flexibility and maintaining access to ample liquidity
- \$400 million revolving credit facility for liquidity purposes virtually undrawn ⁽¹⁾

Leverage Expectations and Conservatism

- Commitment to de-leveraging post-acquisition via combination of modest EBITDA growth, achievement of transaction synergies and voluntary debt prepayment
- Term Loan A with status quo maturity (Feb-2024) acts as source of prepayable debt
- Demonstrated meaningful deleveraging after major acquisitions (Concert, Dresden, Steinfurt)
- Continue required capital expenditures to efficiently maintain operating assets
- Acquisition integration, Spunlace turn-around and synergy delivery will be key

(1) After giving effect to ~\$7.0 million of outstanding undrawn stand-by letters of credit.

Airlaid Materials

Financial Trends

Positioned for Volume Growth

- Lower revenue in 2020 versus 2019 mainly driven by contractual pass-through of declining raw material costs
- Volume grew in all product categories except tabletop in 2020, which was negatively impacted by COVID restrictions
- 2021 reflects tabletop recovery and addition of Mount Holly as of May 2021; Hygiene experienced softer demand as customers continued destocking in first half but recovered to normalized levels in 2nd half of 2021

Track Record of Improving Profitability and Margins

- Strong operational excellence and CI programs improving efficiencies
- Pass through of raw material cost changes (on ~70% of revenue) allows to preserve margins during inflationary environment
 - Also successfully increased prices on non pass-through customers
 - Implemented energy surcharges in Q4-2021 to offset rising energy costs
- EBITDA up 10% in 2020 versus 2019 with steadily growing margins
- Profitability improved in 2nd half of 2021 due to more normalized demand and addition of Mount Holly
 - Overall margin decline driven by customer inventory destocking in 1H of 2021

Revenue & Shipment Trend

EBITDA & EBITDA Margin

Composite Fibers

Financial Trends

Improving Outlook

- Strategic partnerships with leading, global customers
- Steady growth in coffee and electrical categories
- High demand in composite laminates and technical specialties during pandemic

Profitability lowered by inflation

- Operational excellence programs improving efficiencies
- Aggressive cost control initiatives
- Announced price increases in Q1-21 and Q3-21 and energy surcharges in Q4-21 to offset rising input costs (wood pulp, energy and logistics)
- Margin profile steadily improving since 2018; but 2021 severely impacted by inflationary pressures, particularly in 2nd half of 2021
- Targeting conversion to dynamic pricing model on 50% of revenue base by end of 2022

Revenue & Shipment Trend

EBITDA & EBITDA Margin

Spunlace

Financial Trends

Positioned for volume growth recovery

- Peak revenue in 2020 driven by global surge for nonwoven materials driven by COVID
- 2021 volume softness due to supply chain inventory correction starting in mid-2021
- Applications such as Automotive, Aerospace and Hospital Operating Room recovering after slowdown due to COVID

Profitability impacted by inflation

- Operational excellence and CI programs improving efficiencies; most sites currently operating below full capacity
- Pass-through of raw material inflation in place with larger Consumer and Medical accounts, but majority of Sontara Professional business on annual pricing and currently lagging in cost recovery
- 2021 significantly challenged by energy and raw material inflation
 - 10% price increase announced in Oct. 2021 to help offset rising energy and input costs
- Announced leadership realignment to enhance focus and immediately address near term challenges and accelerate turnaround
