NONWOVEN WALLCOVER BASE | EVERYONE CAN BE CREATIVE

With their performance and functionality, nonwoven wallcoverings are quickly becoming the top choice of installers and design professionals around the world. Their dimensional stability ensures high tear resistance and no material shrinkage or expansion when wet.

Wallcover Types

- **TEMPERA®**
Nonwoven wallcover base for excellent dimensional stability and dry stripability.
- **DIGI-TEMPERA®**
Nonwoven wallcover base using a traditional product for digital printer e.g. Ink, jet and dry toner application.
