AIRLAID WIPES SOLUTION

Thin but strong – Our airlaid substrates for dry and wet wipes applications offers you an ultra-thin and highly absorbent range of products where textile like properties and efficiency are required. A full range of possibilities. Create custom personal care wipes with the global supplier of choice.

YOUR ADVANTAGES

- Soft yet durable
- Gentle on skin
- Superb strength when wet
- Textile-like structure with customized patterns
- Excellent liquid storage and release

SUSTAINABLE WIPES SOLUTION

Sustainable from smooth durability to unique customization. Our highly specialized personal care and industrial wipes solutions provide the quality and customization you need to stand out in your marketplace. All our wipes solutions are offered with FSC® (FSC® C101840)* or PEFC (PEFC/04-31-2499) certifications.

SOFT AND LOFTY NONWOVEN

Our advanced airlaid nonwovens integrate a mix of long synthetic and pure natural fibers. This creates a soft but resistant material that absorbs and holds liquids in seconds. They're suitable for applications that require softness plus wet tensile and delamination strengths.

- **Dry Wipes**
Highly absorbent cleaning wipes for industrial applications.
- **Wet Wipes**
Soft and lofty non-woven with high wet strength for personal care and baby wipes applications.
